THE FRESH FEELING

Water is an essential part of our daily personal hygiene. It offers a gentle yet thorough clean. This is why more and more people are turning to this natural and beneficial form of toilet hygiene, using water instead of paper after using the toilet. A Geberit AquaClean shower toilet conveniently ensures a sense of cleanliness and well-being, leaving users with a clean, assured and confident feeling all day long at the touch of a button.

WHY CHOOSE GEBERIT AQUACLEAN?

ONLY WATER GETS YOU **REALLY CLEAN**

Would you seriously prefer to clean your dirty hands with just paper, or replace your shower with some other, dry form of cleaning? Probably not, right? If you aren't using water, you aren't really getting clean. Just as taking a shower every day is simply a part of life, Geberit also wants to make a lasting change to the whole culture around personal hygiene when going to the toilet. At the touch of a button, AquaClean shower toilets leave you feeling freshly showered every time you use the toilet.

WHAT IS A SHOWER TOILET?

At first glance, modern shower toilets are virtually indistinguishable from the traditional alternatives since the spray arm is found in a well-protected park position. All you have to do to start the shower procedure is simply touch a button and the spray arm emerges from its park position. Within just a few seconds, a pleasant, body-temperature water jet starts to clean you. The patented WhirlSpray shower technology makes for a particularly thorough cleaning experience with minimal water consumption.

GOOD REASONS FOR A **SHOWER TOILET** FROM **GEBERIT**

Product designer Christoph Behling.

IMPRESSIVE DESIGN

Innovated by product designer Christoph Behling, Geberit AquaClean shower toilets blend harmoniously into any bathroom. The compact technology of the AquaClean Mera, Sela and Tuma shower toilets allows for a slimline design that exudes simplicity and elegance.

EXCEPTIONAL QUALITY AND SERVICE

Geberit introduced the first WC with spray functionality back in 1978, and the company has built up quite the portfolio of in-depth expertise over the last 40 years and counting. Anyone who has ever purchased a Geberit shower toilet can attest to the long-lasting enjoyment they offer. What's more, with the help of our outstanding customer service, in-app remote service options, and our own highly trained Geberit sanitary specialists, we ensure top-class product support with your purchase and well beyond.

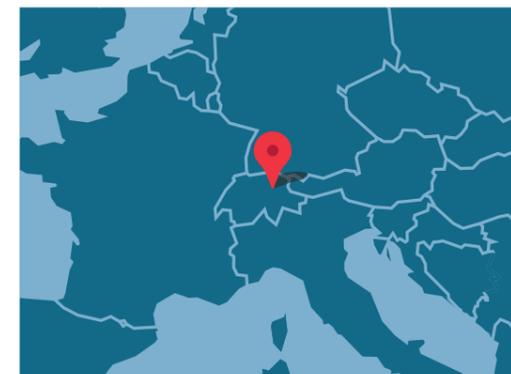

Installation of shower toilets.

MOUNTED IN SWITZERLAND

Centrally located at Geberit's Rapperswil-Jona headquarters in Switzerland, over 100 employees are responsible for the highly precise and reliable assembly of all Geberit shower toilets. Our products comply with European standards and benefit from short transport distances thanks to our central assembly site.

LONG-TERM WARRANTY

Offering durable products, premium materials and reliable spare parts, the Geberit brand is synonymous with only the very best quality. Customers also have the option of signing up for an extended warranty to ensure even more product enjoyment for many years to come.

In the Swiss town of Rapperswil-Jona in the heart of Europe.

FRESH AND CLEAN AT THE TOUCH OF A BUTTON

GENTLE PERSONAL HYGIENE

The additional shower spray of the gentle lady shower ensures safe personal hygiene with pure water. The nozzle integrated in the spray arm remains protected when not in use.

FRESH AIR IN THE BATHROOM AT ALL TIMES

The odour extraction unit serves to eliminate unpleasant odours before they can spread. The system starts automatically as soon as someone sits down on the shower toilet.

GENTLE DRYING

When it comes to gentle drying, the warm air dryer offers the perfect solution with five individually adjustable temperature settings.

PERFECTLY USER-ORIENTED

The built-in proximity sensor allows functions such as water heating, heated seat and the orientation light to start automatically.

PERSONAL WELL-BEING PROGRAMME

All of the shower toilet functions can be controlled in an instant. The remote control offers a quick overview and allows all actions to be taken with one hand. A push of a button is all it takes to call up personal settings.

COMPREHENSIVELY CLEAN

The oscillation function gently moves the spray arm back and forth for even more thorough cleaning.

PRIMARILY TOUCHLESS

The toilet lid opens and closes automatically thanks to the proximity sensor.

PERFECT CLEANLINESS

For the last 40 years, Geberit has been continuously perfecting the spray functionality along with the centrepiece of every shower toilet: the shower spray.

The innovative WhirlSpray shower technology enables particularly thorough and pleasant cleaning thanks to the dynamic aeration.

SUPERIOR COMFORT

The ergonomically optimised WC seat made of high-quality thermoset has integrated seat heating.

SOFT NIGHT TIME ILLUMINATION

A discreet, automatically activated light in seven selectable colours and five brightness levels assists orientation at night.

www.geberit-aquaclean.co.uk/comfort

1 WHIRLSPRAY SHOWER TECHNOLOGY

Relax and enjoy the pleasant spray functionality courtesy of the patented WhirlSpray shower technology. This shower spray is refined by means of dynamic aeration for targeted and thorough cleaning with low water consumption to leave you feeling fresh and clean all daylong.

4 DRYER

Dry, harsh toilet paper does not feel pleasant. Fortunately, this is where the touchless warm air dryer offers the perfect solution for a gentle drying experience. The dryer arm automatically aligns with the most recent position of the spray arm for optimal drying performance. As for the temperature, this can be set at five different levels.

2 TURBOFLUSH TECHNOLOGY

Based on a flow-optimised rimless WC ceramic developed by Geberit, the innovative TurboFlush technology enables particularly quiet and thorough flushing. This means you can flush the toilet at any time without annoying noises – even at night. And because the TurboFlush technology flushes the toilet cleaner than a normal flush, the traditional toilet brush is virtually no longer required after using the toilet.

5 HEATING THE WC SEAT

If you're someone who appreciates a heated car seat in winter, you will love the sensation of a warm shower toilet seat. This heated seat offers a wonderfully cosy and relaxing experience. The individually adjustable heating function is available immediately.

3 ODOUR EXTRACTION UNIT

Who wants unpleasant smells to linger in the bathroom? With the automatic, low-noise odour extraction unit, unwanted odours are absorbed directly inside the WC ceramic appliance and eliminated by means of a ceramic honeycomb filter. What's more, since the system runs for two minutes, no additional fan is required.

6 ORIENTATION LIGHT

The subtle orientation light is just bright enough to guide the way at night and makes it easier to fall asleep afterwards. Activated by the proximity sensor, it lights up in one of seven selectable shades and five brightness levels.

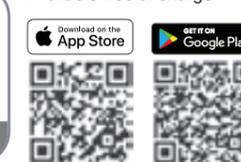

REMOTE CONTROL / WALL-MOUNTED CONTROL PANEL

All shower toilet functions controlled in an instant, with the remote control and the wireless, freely positionable wall-mounted control panel providing a quick overview. The intuitive operability allows all actions to be taken with one hand using either control. Four user profiles can be stored on the elegant remote control. The wall-mounted control panel is available in white and black.

Available free of charge

AQUACLEAN FUNCTIONS IN THE GEBERIT HOME APP

Just like other Geberit products, the shower toilet functions can be conveniently controlled via the Geberit Home app. This effectively transforms your smartphone into a remote control, which allows you to save all of your personal settings and take them with you on your travels.

GEBERIT AQUACLEAN

THE MODELS AND THEIR ADVANTAGES

Geberit AquaClean shower toilets are available in a wide range of models and design standards. Discover the perfect model to suit your needs.

FOR THE PRICE-CONSCIOUS

AquaClean Tuma is a compact all-rounder that includes all the most important functions. As the name suggests, the luxurious Comfort model is a real treat. In the case of many existing, commercially available ceramics, this model can also be easily retrofitted as an enhancement solution.

GEBERIT AQUACLEAN TUMA WC ENHANCEMENT SOLUTION
The adaptable shower toilet seat as a Classic or Comfort model features the same functions as the complete solution. Ideal for rented accommodation, since the enhancement solution can be quickly and easily installed on various existing WC ceramics without the need for any conversion work.

← Find the right enhancement solution for your ceramic appliance quickly and easily with the online ceramic calculator.

GEBERIT AQUACLEAN
FLOOR-STANDING SOLUTION

STURDY, PRACTICAL, AESTHETIC

Regardless of whether the project involves a new building, an extensive renovation or a just a little upgrade, a floor-standing shower toilet is an ideal solution for every bathroom situation. In addition to their sleek appearance, this impressive model has the same well-known features as its wall-hung counterparts.

←
The AquaClean Tuma comes in both a wall-hung and floor-standing model. The compact ceramic appliance, together with the Geberit Monolith sanitary module, can be integrated perfectly into virtually any bathroom environment. The Floor-standing shower toilet is available in both Comfort and Classic models. The colour palette is also available in well-known models such as the wall-hung design.

DIGITAL SUPPORT

MORE FLEXIBILITY FOR YOU

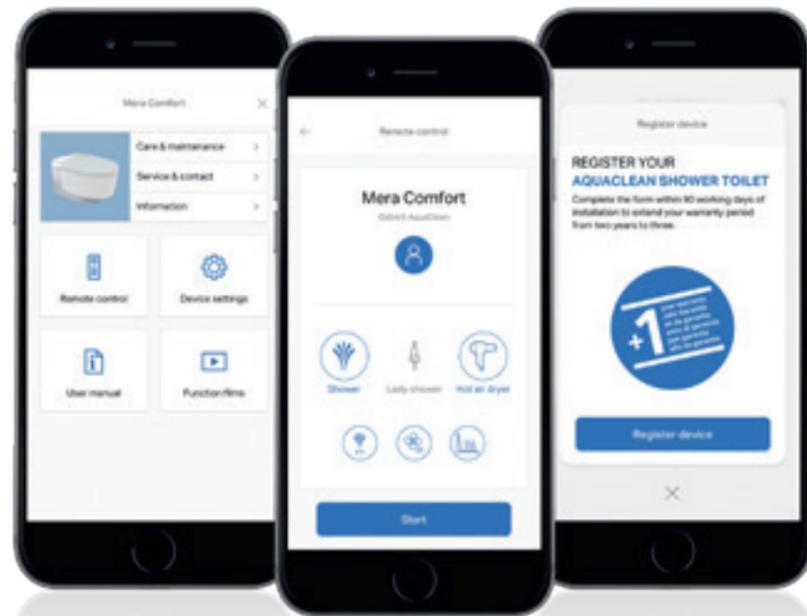

The Geberit Home app transforms any compatible smartphone into a remote control for AquaClean shower toilets. All functions can be carried out and saved via the app, and even software updates are quick and easy. The in-app video clips also provide ingenious tips and tricks for maintenance and care.

EXTENDED WARRANTY

Geberit offers a two-year end user warranty as standard from the time of installation. Provided the product has been installed and registered by an installation company, Geberit will extend the warranty period by one year. All you have to do is register the model you have purchased at www.geberit-aquaclean.co.uk/warranty or send the supplied warranty card to Geberit within 90 working days of the installation date.

HOME COMFORTS

If you have any problems with your AquaClean shower toilet, you can now get in contact with our Technical Team via the Home App, who can access your toilet remotely. All you have to do is provide the access code on your screen. In most cases any issues can be solved or identified in this way and an engineer is only called out when necessary.

Smartphones are not just for operating the AquaClean shower toilets either – they can also be used to register devices in no time.
←

EXCEPTIONAL SERVICE, NEAR OR FAR

HYGIENE MADE EASY

THANKS TO INTELLIGENT TECHNOLOGY

Hygiene and cleanliness are the top priorities in the development of AquaClean shower toilets. This is also reflected in the use of scratchproof KeraTect®, which provides years of protection for the ceramic surfaces and allows them to be cleaned efficiently.

Even the nozzles are easy to clean, replace and renew.

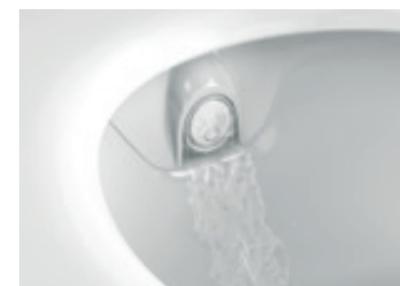

www.geberit-aquaclean.co.uk/hygiene

← Automatic descaling programme

← Remove the WC seat and lid in a single easy step

← Pre flush and post flush of the spray arm with every shower procedure

RIMLESS CERAMIC PAN WITH TURBOFLUSH TECHNOLOGY

With its globally unparalleled flushing-out performance, the TurboFlush technology flushes more cleanly, more economically, and much more quietly than a normal flush. The innovative technology also cuts down significantly on cleaning effort and means the traditional toilet brush is no longer required after using the toilet.

SIMPLE REMOVAL OF SEAT AND LID

The QuickRelease function allows the WC seat and lid to be removed effortlessly in a single step to make cleaning quick and easy. The fastenings also remain free of deposits.

DESCALING

A specially developed descaling programme removes deposits from all water-bearing parts making descaling easy. The remote control and the control panel both show when descaling is required.

CONSISTENTLY CLEAN

The automatic pre- and post-cleaning process ensures that the spray arm itself is really clean. The spray arm is automatically rinsed with fresh water before and after each use and the spray nozzle is also rinsed clean with water in its park position.

RIMFREE CERAMIC PAN

The Rimfree ceramic pan makes ensures perfect hygiene. Thanks to its optimised water guide, the entire inner ceramic surface is completely rinsed for much easier cleaning. And since it is rimless, there are no hidden areas where deposits can build up.

Simple and thorough cleaning thanks to rimless ceramic

AN OASIS OF
 WELL-BEING
 IN JUST A FEW
 HOURS

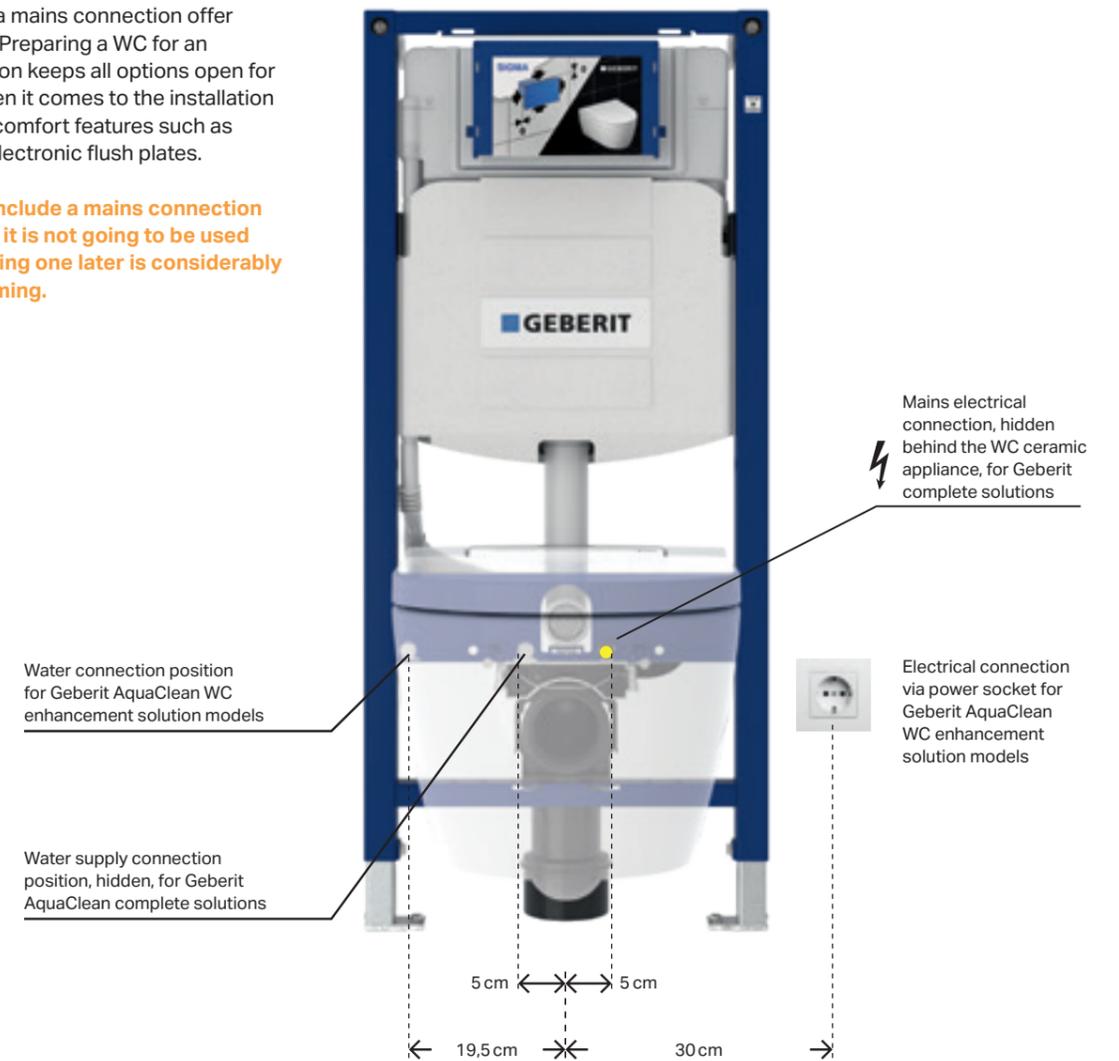

SOLUTIONS FOR ALL CONSTRUCTION SITUATIONS

A MODERN BATHROOM IN JUST A FEW HOURS

Geberit AquaClean shower toilets can be installed in virtually any constructional situation. All you need is power and a water supply connection.

Modern WCs with a mains connection offer more possibilities. Preparing a WC for an electrical connection keeps all options open for your customer when it comes to the installation and retrofitting of comfort features such as shower toilets or electronic flush plates.

It is advisable to include a mains connection for the WC even if it is not going to be used right away, as adding one later is considerably more time-consuming.

MODERNISING THE BATHROOM WITH GEBERIT MONOLITH

A QUICK AND EASY SPA EXPERIENCE

Where an exposed cistern is already present or when time, budget or basic structural considerations do not permit invisible integration of the cistern behind the wall, the Geberit Monolith offers a stylish alternative.

An extra-slim cistern and the required sanitary technology are housed beneath an elegant surface. The Monolith is constructed in such a way that it can be mounted and connected to the existing water supply lines and discharge pipes quickly and easily. In terms of the mains connection required for the Monolith Plus, the best case scenario is that a power socket has already been fitted next to the toilet during installation. Otherwise, the electrical current lines can be laid anywhere in the bathroom via a conventional power socket and cable duct. The entire installation usually takes less than a day.

The elegant front of the Geberit Monolith Plus also conceals a solution for water hygiene in the form of the interval flush. Programmed via the Geberit Home app, it reliably flushes the water pipes and the sanitary module at individually adjustable intervals to prevent any germ formation in the stagnant water.

Customer-specific

There is also a customer-specific Monolith option for wall-hung WCs. With this option, the Monolith can be ordered without front panels. It can also be customised to suit (for example, made of wood or glass in a customer-specific colour).

SOFT TOUCH

A gentle touch is all it takes to flush the Geberit Monolith Plus sanitary module.

ODOUR EXTRACTION UNIT INCLUDED

An integrated odour extraction unit in the Geberit Monolith Plus draws odours directly into the ceramic appliance to ensure nothing can spoil the fresh feeling in your bathroom.

RAPID RENOVATION

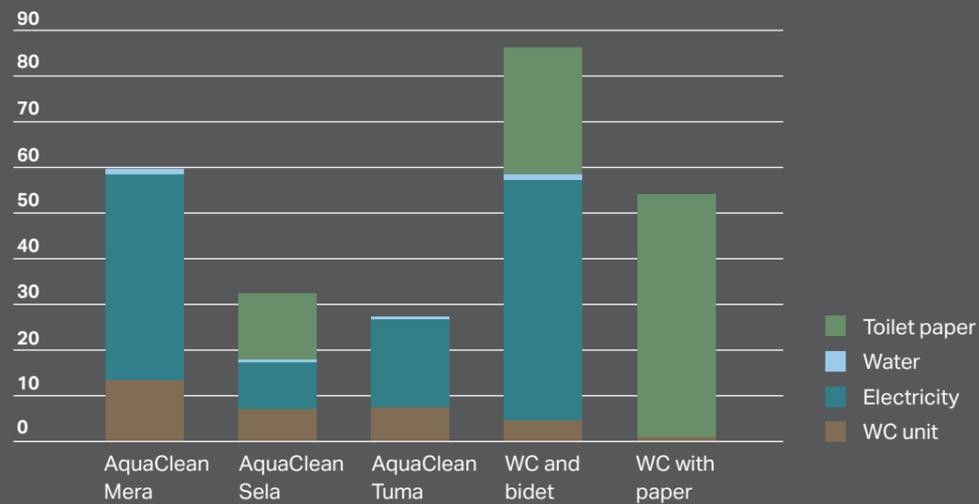

Without any structural adjustments, the Geberit Monolith and Monolith Plus are ready for use after just a few hours, making them the ideal solution for rapid renovation projects.

4 SUSTAINABLE REASONS TO CHOOSE A SHOWER TOILET

1. A COMPARISON OF THE ECOLOGICAL FOOTPRINT

Cleaning with water is cleaner and more gentle than cleaning with toilet paper. The WC complete solutions from Geberit also perform well in terms of life cycle assessment and are comparable with conventional toilets and the consumption of toilet paper. At the same time, the additional water consumption for the spray functionality is negligible. On the other hand, the production of toilet paper and the electricity consumption for heating the water are both paramount considerations.

GEBERIT AQUACLEAN SHOWER TOILETS IN COMPARISON TO CONVENTIONAL TOILETS WITH TOILET PAPER AND BIDETS

The graphic shows the environmental impact, which has been evaluated according to the IMPACT World+ method.

2. SHOWER TOILETS REDUCE WOOD CONSUMPTION

Did you know that the average household gets through 27.5 kilograms of toilet paper every year? By switching to a shower toilet, you can reduce the amount of wood used for toilet paper by 61 kilograms on an annual basis. This equates to a tree trunk measuring 1.7 metres high and 30 centimetres in diameter.

3. CLEANING WITH WATER HELPS TO SAVE WATER

Cleaning with water uses less water than cleaning with toilet paper. The production of toilet paper requires 2,350 litres of water per household per year. In comparison, the spray functionality of the AquaClean Mera Comfort uses just 1,500 litres, amounting to an annual saving of 850 litres of water. This equates to almost 6 bathtubs of 150 litres each.

4. IT SAVES TOILET PAPER AND IS EASY ON YOUR WALLET

With a shower toilet from Geberit, you can count on high quality and low operating costs. All Geberit AquaClean models feature an economy mode, which ensures they consume no more than 0.5 watts when in standby. What's more, this also means a household can save around 212 rolls of toilet paper a year and around fifty pounds.

These figures are based on a 4-person household, accounting for 1 number two and 4 number ones per person per day, 4-ply fresh-fibre toilet paper, 5 sheets for number ones and 15 sheets for number twos.

All AquaClean shower toilet models feature an economy mode.

UNPARALLELED CUSTOMER SATISFACTION

GEBERIT AQUACLEAN – THE ORIGINAL CROWD-PLEASER

We have made over a million customers happy with our shower toilets to date – and we plan to keep that trend going. Every day, we research and develop new concepts with your comfort in mind, and it's really paying off: 80% of our customers are completely satisfied with Geberit AquaClean and would recommend it any time.

Komal Passi, West Yorkshire

"The Sela toilet has been a particular hit with our 11 year old son. Now he loves using the toilet in the en-suite and I can be confident that he's always clean between showers!"

Fulvia Schiff-Gent, Manchester

"After suffering with Carpal Tunnel and noticing the mobility in my hands decreasing, I've realised it is easy to take everyday tasks for granted. However, since we had our Geberit AquaClean installed a couple of months ago it has been a revelation for both my husband and I."

Michael Leigh, Blackpool

"When you use it, there is nothing else like it - you feel clean and fresh, and using water to clean feels so much nicer on your skin than toilet paper."

John Flint, Stockport

"We'd never really considered having a shower toilet before, but now we've had it for a few months, it's wonderful and we've had no problem at all. Should we ever choose to move house in the future, we will take the AquaClean with us!"

**"Wellbeing
begins at
the push of a
button"**

FIRST-CLASS CUSTOMER SERVICE

ALWAYS **THERE** **FOR YOU**

With our experienced, efficient customer service team, we ensure that the feel-good feeling doesn't just stop once you have made your purchase. A considerable number of service cases are straightforward enough to be resolved over the phone, but if an on-site visit is essential, our reliable service technicians can be there in no time throughout the country. Our outstanding survey results motivate us to keep impressing our customers with exceptional performance in terms of quality, advice and service.

CUSTOMER SERVICE*

97%

are satisfied or very satisfied with the friendliness and expertise of the service technicians

"I can't thank you enough for the fantastic work carried out by your service technician. Everything ran without a hitch. I will definitely be recommending a shower toilet to my colleague."

94%

are satisfied or very satisfied with the friendliness, attentiveness and expertise of the hotline team

"The advice was clear and the level of customer service was excellent."

96%

overall satisfaction with customer service

"We were delighted with the level of service we experienced, and particularly impressed by the quick and highly competent work carried out by the service technician"
